

Everett & Mr. M. D. Rivers who had all been approached by the Secretary as to filling the office of Chief of the Brigade.

Each of the gentlemen thanked the Brigade for offering them the post but all declined to accept for various reasons the principal reason given was that they had not sufficient time to give to the duties.

As it appeared from Mr. Everett's letter that he would have liked to accept the position, it was decided to send a deputation to him to ask him to reconsider his decision and to give what time he could spare to the work of the Brigade.

Second Officer Prior, Engineers Baker & White & Fireman J. Wright were appointed to form the deputation.

Amos Everett

Chief Officer
Chairman
6th March 1934
